

Part 3. List of Photographs

Many of the photographs reproduced in this book have been cropped and may also have been reduced or enlarged in size. The original dimensions of the photographs are included in the following list. All dimensions are of the photographic image only; margins are not included.

Many of the photographs found in Jean Larson's estate have handwritten identifications on the reverse sides. The handwriting differs from that of Jean and may be that of her mother, Melva (Alborn) Larson. In the following list, photographs of this type generally are described as: ID by unknown person, written on reverse.

Key to entries in the list: (i) Figure number. (ii) Subject. (iii) Type of photograph: portrait, postcard, snapshot, tintype. (iv) Size of original, in inches, vertical x horizontal dimensions; borders are not included in dimensions. (v) Source of photograph (from collection of RAJ = Roy A. Johnson, JAL = Jean A. Larson, or other). (vi) By whom subject was identified (ID by JAL = Jean A. Larson, G & LJ = Gust and Lydia Johnson, RAJ = Roy A. Johnson, or other). (vii) Photographer (if known).

Part 4. Genealogy

Introduction

Three traditional genealogy tables in this part give the genealogy of Lars and Lisa Larsson as known at the time of this writing. Two ancestor tables (also known as Ahnentafel), one for Lars and one for Lisa, outline their predecessors. In these ancestor tables, the person of interest is designated as the first generation and is given the number 1. The table then works backwards, generation by generation, listing the known members of each generation of ancestors. Each ancestor is given a number, thus the parents of Lars Larsson are numbered 2 and 3 and the grandparents are numbered 4 through 7, and so forth. The genealogy of both Lars and Lisa is nearly complete back through six generations (members of the sixth generation are numbered 32 through 63).

The third table is a descendent table showing the children and grandchildren of Lars and Lisa. In some cases, the great grandchildren are listed but without additional data since most are still living. Much of the data in this table is taken from the files of Jean Larson. The writer also received some data from a distant cousin in Sweden, Lars Åke Ambiörn Lundell. The data Mr. Lundell obtained from the Värmlandsarkiv in Karlstad, Sweden, gave in some cases dates that differed slightly from those found by Jean. When more than one date is available, all are given.

The genealogical data was entered in the software, Family Tree Maker™, and the tables were generated with that software. The tables were edited slightly after conversion to Word files.

Although Jean had extensive sets of genealogy data, her sources unfortunately were not found among the paper files in her estate. The following is a brief description of the sources used to compile the three tables.

Ancestor data is from six sources: (1) An ancestor chart (8 pages) compiled by Jean Larson; the words "California Genealogical Society" appear at the top of each page perhaps referring to the source of the forms; this chart is the major source of data found in the ancestor (Ahnentafel) tables; (2) e-mail correspondence in 2007 from Håkon Bergström who provided genealogical data derived from the parish records of Nedre Ullerud for the maternal ancestors of Lisa (Gustafsdotter) Larsson, (3) an ancestor tree prepared by an unnamed Swedish archive giving data for the parents of both Lars and Lisa Larsson; copy given to the writer by Jean Larson several decades ago; (4) the chapter of family history by Jean Larson published in "American Bicentennial Biographical Album, 1776-1976," and (5 and 6) two ancestor tables prepared by Jean Larson, one published in "Swedish American Genealogist," 1981, Vol. 1, No. 3, pp. 134-6 and the second a type written copy in her files; these reports give names of ancestors with very limited additional data, usually only place and year (without day and month) of birth and death.

Descendent data is from five documents: (1) the afore-mentioned book chapter by Jean Larson; (2) a family group sheet for Lars Larsson prepared by Jean Larson, dated July 1981; this sheet gives data for Lars and Lisa Larsson and their eleven children; (3) an e-mail letter to the writer from Lars Lundell in 1999, see reference 8 in References and Notes at the end of Part 2; (4) a descendent report for Lars Larsson, computer printout by Jean Larson, September, 1985; and (5) a handwritten chart (4 pages) by Jean Larson giving data for Otto Larson descendants.
